Gardens Team Highlights

This week, we have an extra special highlight from our Pemberville location! Did you know there is a greenhouse in Pemberville where the students in our Transition Program learn to garden? This is a crucial part of their life skills development and vocational exploration as they complete their high school education in the unique farmstead setting. When they have extra veggies, they love to contribute them to your CSA shares!

The okra featured in this week's Medium and Large shares was grown by Jonathan (pictured at right, above), one of the rising seniors in the Pemberville Transition Program. We got to be there as he harvested the okra, and he could NOT stop talking about how proud he was of his "monster sized" okra. We hope our Medium and Large shareholders enjoy this special treat!

Our second highlight is Darin (pictured at right, below), one of our long-time Gardens Team members in Whitehouse. Writing and labeling is one of Darin's favorite tasks, so he's been busy labeling stakes this week for late summer and fall crops. He also harvested purple tomatoes and bell peppers, watered, and assisted with sanitizing and organizing the Gardens Building. In addition to these projects for the CSA Program, Darin has been spearheading an herb drying project (featured in the photo at right) for our newest retail partner, Boochy Mama's in Toledo!

The mission of Bittersweet, Inc. is to positively impact the lives of individuals with autism and those whose lives they touch.
