WEEK 5 • SUMMER 2023

Member Updates

Welcome to week 5 of your Summer CSA! This week, we're excited to feature beautiful summer basil and garlic in all share sizes! Did you know that garlic has to be cured for two weeks or more after it is harvested? The garlic in your shares was harvested a few weeks ago and has been curing in our greenhouse in preparation for your enjoyment! With the dynamic duo of garlic and basil in this week's line-up, we've included a perfect summertime flavor-packed hummus recipe on p.2!

Gardens Team Highlights

As always, the entire Gardens Team has been hard at work preparing your weekly share!

This week, Cece (pictured at right, above) harvested the leeks in the small shares, the zucchini in the large shares, and pulled more weeds than we could count in the hoop houses! Darin (pictured at right, below) sanitized our harvest crates and storage containers, labeled produce packaging, and helped pack the veggies in your share.

Keerston (pictured above on right) and Matt (pictured on p.1) worked in partnership to harvest, trim, and bunch the green onions for the medium shares. Austin and Keerston (pictured together above) also worked in partnership to harvest, triple rinse, and bunch the chard for our small shares. Finally, as always, Keerston arranged the beautiful flowers in your share!

This is only a small snapshot of the incredible teamwork that happens all week long in Bittersweet Gardens, all made possible by your support. Thank you!
